

mobile trommel screen

MPB 14.44 

The Pronar MPB 14.44 mobile trommel screen is machine for customers looking for a small and very compact equipment. The drum with a length of 4.4 m and a diameter of 1.4 m in combination with a hopper with a capacity of 3.3 m³ guarantees effective work wherever large machines do not have room. The CAT 1.7 engine efficiently drives all systems without consuming much fuel. The possibility of ordering the Pronar MPB 14.44 trommel screen with an electric motor additionally reduces the operation costs. It also require less complex periodic inspections.

KEY FEATURES & BENEFITS

- | low fuel consumption
- | easy service access
- | the possibility of hauling the machine on the road without additional permits
- | quick preparation for work and the „autostart” function
- | can be ordered with an electric motor
- | compact size

TECHNICAL DATA

MPB 14.44

Trommel dimensions (length/diameter) [mm]	4400/1400
Dimensions (length/width/height) [mm]	10690/2250/3860
Weight [kg]	~11000
Max trommel rotational speed [rpm]	23
Effective sieve surface [m ²]	16
Loading height [mm]	2580
In-Feed hopper capacity [m ³]	3,3
Engine	CAT 1.7l, 35 kW (47 HP), Stage V/Tier 4 Final; ABB, 30 kW (41 HP)
