

mobile trommel screen **MPB 18.47/1**

The PRONAR MPB 18.47/1 mobile trommel screen is a machine designed for users looking for a product with very good parameters, attractive price and simple build. The simplicity of its design, versatility, and affordable price make it a great choice for small companies that direct their steps towards recycling jobs. Additionally, a full warranty is a valid argument in favor of choosing the Pronar MPB 18.47/1 over the worn-out aftermarket machine. This simple screen is also an interesting proposition for already developed companies that are looking for a machine for occasional screening or support for their fleet during an intense season.

KEY FEATURES & BENEFITS

- | a favorable price calculated
- | low running costs
- | compatible with selected manufacturers' drums
- | the low loading height makes it easier to work with small loaders

TECHNICAL DATA

MPB 18.47/1
